Hi Jude, I write this email to thank you and commend you on what you have achieved with The Good Karma Brand. You did so much with the little resources that we made available. You were able to source fabric, CMT services and printing for what could have been an amazing project. Unfortunately, in South Africa one needs their own seamstresses, which we did not have. You have developed so many skills and capability, from design, production website and social media building. I believe that you will be an asset to any business and wish you only the best of luck, health and happiness and so much success, regards Darren

PS, if you need something, please don't be scared to ask.
